EXAMINER'S AMENDMENT

The application has been amended as follows:

Fig. 1 should be labeled as "Prior Art" because only that which is conventional is illustrated.

DETAILED ACTION

1. Claims 1-22 are allowed.

Examiner has considered applicant's arguments of November 16, 2000 that source is pulsed.

2. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance is the inclusion of the limitation of a pulsed light source in imaging interferometry with an object-moving device, which combination with all recited limitations is not found in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The application having been allowed, formal drawings are required in response to this Office Action.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ozawa (6,154,270)
